

A Professional Development Workshop

# CRISIS COMMUNICATION SKILLS

- Do you work in a field that requires you to support individuals who have difficulty regulating their emotions?
- Do they seem irrational at times and make decisions that only compound their difficulties?
- Do these emotionally sensitive individuals frequently talk about suicide?
- Do you feel you are not adequately prepared to manage crisis situations with the individuals you support and would like to broaden your understanding and develop skills to manage more effectively?

If you answered “**yes**” to any of these questions then join us for an informative workshop that will shed some light on emotion-driven behaviours and what you can do to help.

***Presenter: Sabrina Andrews***
